The loan receivables are due upon the loan maturity ranging from September 2023 to April 2024 and the amount of RM5.8 million provided as expected credit losses in the preceding financial quarter ended 31 March 2023 was deemed sufficiently provided. The manufacturing and interest receivables are analysed as follows: -

The manufacturing and interest receivables, net of allowance for impairment, that are past due for more than 60 days amounted to RM0.6 million, representing approximately 46% of the total manufacturing and interest receivables of the Group. These receivables are creditworthy receivables and the Group maintains good business relationship with on-going business transactions with these customers. Given the credit exposure of the Group's portfolio of these receivables, the allowance for impairment of approximately RM0.6 million made in the prior year was sufficient. As at the date of this report, RM0.7 million or 50% of these receivables has been collected.
